## DETAILED ACTION

### *Examiner's Amendment*

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: **Cancel Claims 1-47.**

This application is in condition for allowance except for the presence of claims 1-47 drawn to an apparatus non-elected without traverse. Accordingly, claims 1-47 have been cancelled.

### *Allowable Subject Matter*

Claims 48-63 are allowed.

The following is an examiner's statement of reasons for allowance: The closest prior art known to the Examiner is cited on the PTO 892 of a previous Office action. The Tang (US 5,904,961) reference discloses that the donor support **24** is exposed to the atmosphere outside the chamber **21** and also discloses a heating station to eliminate volatile contaminants from the donor coating. Therefore, the cited prior art does not disclose or suggest separating an impurity contained in the organic compound along with the movement of the heater in the first chamber of the apparatus; and evaporating a high-purity organic compound obtained by separating the impurity to form an organic compound layer in a second chamber of the same apparatus, wherein the formation of

the organic compound layer is conducted without decreasing the purity of the high-purity organic compound, as required by the presently claimed invention. Moreover, the cited prior art does not disclose or suggest wherein the purifying and the evaporating are conducted continuously without exposing the purified organic compound to air outside the first and second chambers, as required by some of the present claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
